

WG-RCB-01 NonEx Remote Control

Remote controller for Crane CCTV system

The remote control is used to operate the Zoom and Auto Focus functions, as well as to select between different cameras in multi-camera systems. These functions are activated by pressing the corresponding buttons on the controller.

The remote control should be mounted in an ergonomically suitable position for the crane operator.

HOUSING :

Ingress Protection:	IP51
Weight:	0.2 kg
Size (W x H x D)	180 x 72 x 90mm
Cable:	5m (other lengths on request)
Operating temp.:	Ta: -20°C to +65°C
